Grilliato Recessed luminaires for grilliato ceilings

Recessed into a 95×95 mm grilliato ceiling, for offices and public buildings. Mounting: 95×95 mm grilliato ceiling.

Model	Power	Luminous flux	Ingress protection	Dimensions	Price, UZS
SVO 01 Grilliato 30W	30 W	up to 5,400 lm	IP20	95×95 mm	296,800 UZS

Price includes 12% VAT. Price list dated 21 September 2026.

The calculated flux is power × 180 lm/W: an upper bound from the efficacy claimed for the LED modules; the module specification and the report are not published on this site. It is not a measurement of the assembled luminaire: the 2018 IES files give 130 to 140 lm/W. The LM-79 report is in progress; until then, use the flux from the IES file in your design, not the calculated one.

We quote the kit and the price against your technical specifications.
